

Water Street Bridge over the Milwaukee River

Project Update - November 2025

Update to Water Street Bridge Reopening

The City of Milwaukee is rehabilitating the Water Street Bridge over the Milwaukee River.

The project team is resolving engagement and alignment issues with the bridge center lock to ensure it functions properly.

Due to this work, the bridge will not reopen to traffic today, Monday, November 10.

The City will provide another update when a reopening date is identified, which is anticipated to be later this week.

The project team thanks you for your patience and cooperation with this work!

Schedule is weather dependent and subject to change
