Wisconsin Department of Transportation
Public Involvement Meeting

175

October 1st, 2025
Project 2010-05-02/72

The Wisconsin Department of Transportation and the City of Milwaukee Department of Public Works are planning to improve Appleton Avenue (WIS 175) from Lisbon Avenue to Burleigh Street. The project is divided into two segments, there are 2 alternatives for each segment (see map and next page). Roadway construction is tentatively scheduled for spring of 2031.

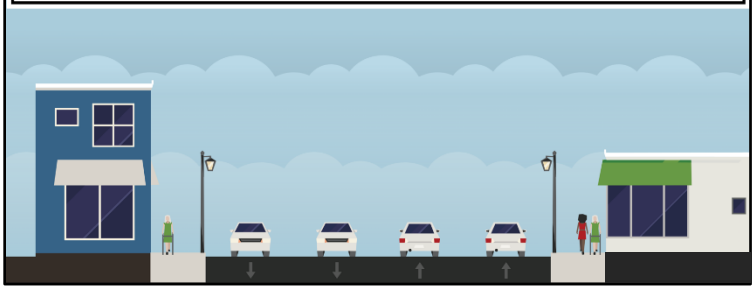

PROJECT NEEDS

- Overall corridor safety improvements
- Improve pavement structure and ride
- Improve pedestrian facilities (ADA compliance)
- Evaluate adding bicycle facilities
- Reduce vehicle speeds
- Modify local road intersection geometrics
- Evaluate corridor traffic operations
- Update traffic signals

Anticipated Project Schedule

Final Scoping & Preliminary Design																												
Final Design																												
Construction																												

SEGMENT 1, ALT 1 - WIS 175 - EXISTING

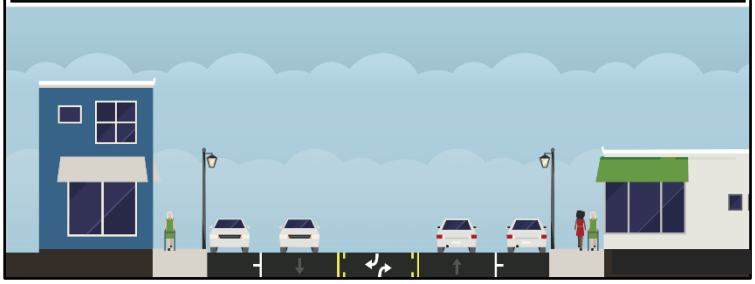

- Roadway footprint remains the same
- Lane widths match existing
- Pedestrian facilities match existing
- No dedicated bike facilities

SEGMENT 1, ALT 2 - WIS 175 - ADD PATH

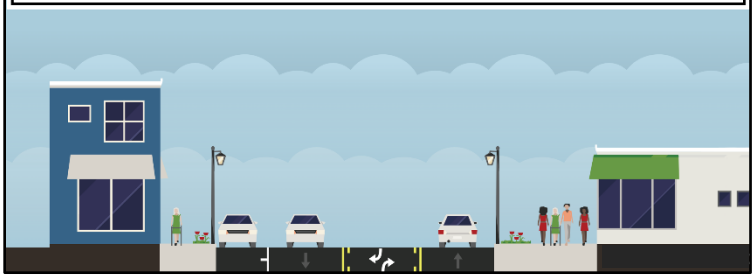

- Add left turn lanes at signals
- Narrow lane widths
- Add shared use path
- Local road intersection modification

SEGMENT 2, ALT 1 - WIS 175 - EXISTING

- Roadway footprint remains the same
- Lane widths match existing
- Pedestrian facilities match existing
- No dedicated bike facilities
- Existing parking limits remain the same

SEGMENT 2, ALT 2 - WIS 175 - ADD PATH

- Add left turn lanes at signals
- Narrow lane widths
- Add shared use path
- Local road intersection modification
- Perpetuate only the parking limits in demand

WE WANT YOUR INPUT!
