PROJECT UPDATE

Holton Street Bridge Rehabilitation Project

The City of Milwaukee is rehabilitating the N. Holton Street Bridge from E. Reservoir/Glover avenues to just north of Brady Street. Periodic roadway closures will be required in 2025, including a full closure of the Holton Street Bridge later this year.

Beginning Friday, June 20, 2025:

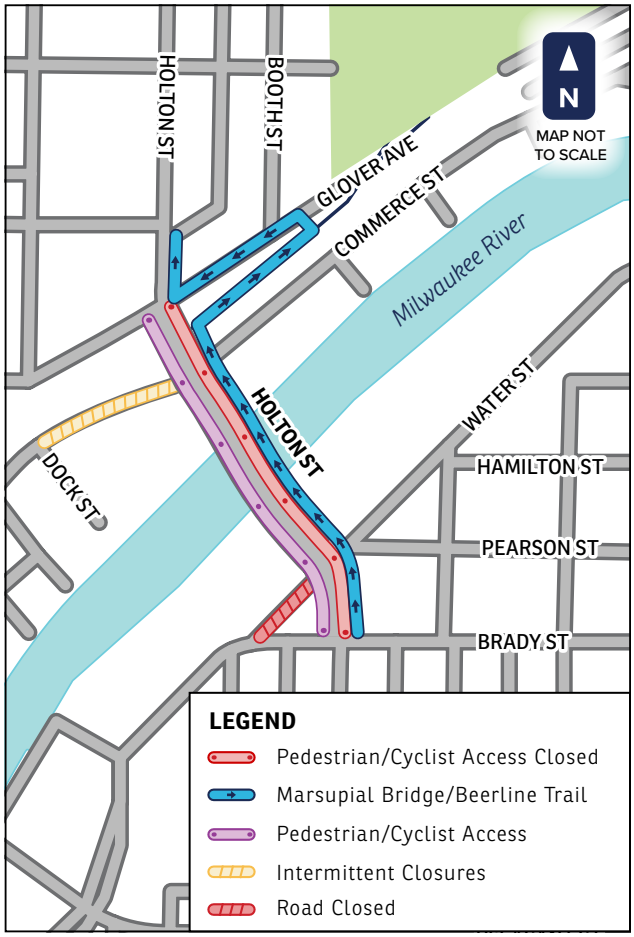

Paint removal operations are set to start on the Holton Street Bridge over the Milwaukee River.

- Crews are expected to work from 7 a.m. to 7 p.m., Monday through Saturday until mid-August 2025
- Residents and businesses should be aware that loud noise is associated with this work

Daytime closures of Commerce Street are scheduled to continue between 9 a.m. and 3 p.m.

The bidirectional bike lane and sidewalk on the east side of Holton Street remain closed throughout the duration of the rehabilitation project. Pedestrians and cyclists are encouraged to use the Marsupial Bridge or the sidewalk on the west side of Holton Street to get around the closure.

All work is weather dependent and subject to change.
