PROJECT UPDATE

The City of Milwaukee is rehabilitating the Cherry Street Bridge over the Milwaukee River. The following work is scheduled to take place as part of this project.

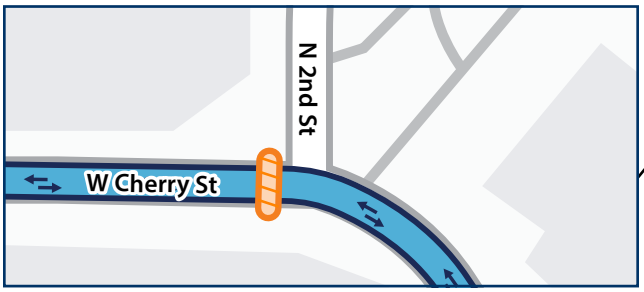

Beginning the week of Monday, May 5:

- Residents and businesses should anticipate increased truck traffic on W. Cherry Street due to steel deliveries.

Motorists and pedestrians are advised to stay alert as heavy construction materials will be moving in and out of the area. Please exercise caution when navigating through the work zone.

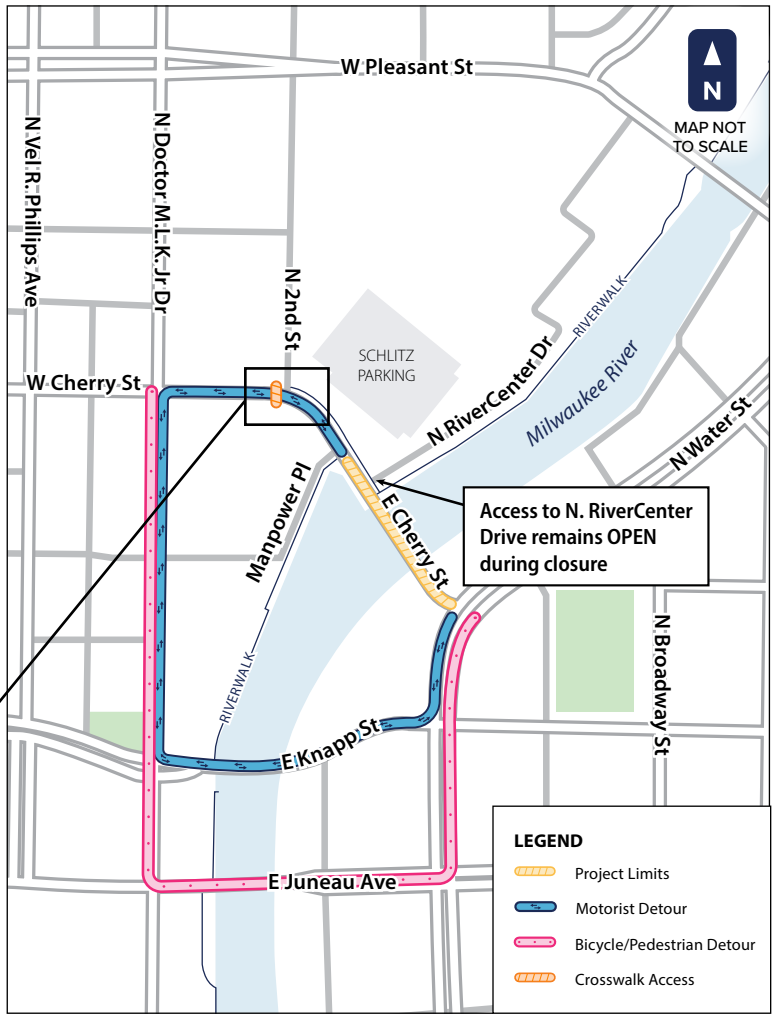

Pedestrian Access:

» Pedestrians are encouraged to use the crosswalk at N. 2nd Street to cross W. Cherry Street.

Drivers are reminded to slow down in work zones and stay alert for workers and changing road conditions.

Access to residences and businesses will be maintained.

All work is weather dependent and subject to change.
