

W. Lisbon Avenue from W. Burleigh Street to N. 100th Street

CONSTRUCTION FORECAST

June 2025

The City of Milwaukee is reconstructing W. Lisbon Avenue from N. 100th Street to W. Burleigh Street. During 2025, crews are expected to reconstruct the roadway between N. 100th and N. 86th streets. The following work is scheduled to take place over the next several weeks.

June 9 - June 20, 2025:

Crews are scheduled to continue pavement removal and grading operations in the westbound driving lanes and sidewalk.

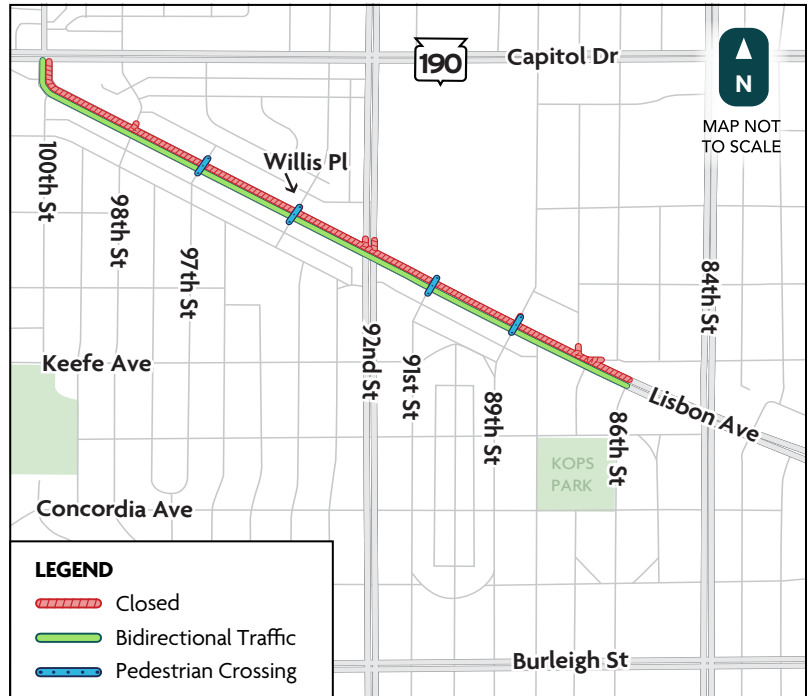

- Bidirectional traffic is maintained in the eastbound lanes
- Pedestrian access on the north side of the roadway remains restricted
- Pedestrians are encouraged to use the sidewalk on the south side of the roadway and the dedicated crosswalks at 89th Street, 91st Street, Willis Place, and 97th Street

Short-term business driveway closures on the north side of Lisbon Avenue are required as crews remove pavement and driveway approaches. Access will be restored with temporary gravel following pavement removal operations. Parking is available on nearby streets during this work.

Businesses impacted by these closures will be notified by phone prior to this work.

Underground electrical utility work is expected to begin at 86th Street and move west toward 100th Street.

Businesses and residents should be aware that noise and dust are associated with this work. Steps are taken to minimize these effects.

All work is weather dependent and subject to change.

Access to residences and businesses will be maintained.
