

E. North Avenue - N. Humboldt Blvd. to N. Prospect Ave.

PROJECT COMPLETION NOTICE

MULTIMODAL IMPROVEMENT PROJECT COMPLETE, TWO-WAY TRAFFIC RESTORED

The City of Milwaukee's multimodal improvement project on E. North Avenue from N. Humboldt Boulevard to N. Prospect Avenue is complete and the street is now open to two-way traffic.

Improvements made during the project include:

- New asphalt pavement and lane restriping, including high visibility crosswalks at several intersections and bike lane markings
- ADA-compliant sidewalk curb ramps
- Pinned-on concrete islands for permanent bike lane protection
- Bus boarding islands

Next spring, crews will return for landscaping and restoration work, and to install the green, high friction pavement marking on the concrete bus boarding islands for bike lanes. No major detours or long-term closures are anticipated with this work.

The project was completed on schedule, and the project team would like to sincerely thank residents and businesses for their patience throughout the project.
