S. Kinnickinnic Avenue - E. Holt Avenue and S. Fulton Street

Traffic Safety Project

January 2026

Project Overview

The City of Milwaukee - Department of Public Works (DPW) received a request to make improvements to S. Kinnickinnic Avenue (STH 32) between E. Holt Avenue and S. Fulton Street to reduce speeding and curb reckless driving.

The earliest anticipated construction for this project is late 2026, pending support from property owners and the Wisconsin Department of Transportation (WisDOT).

Based on feedback from public meetings, the design for proposed improvements has been prepared by DPW staff, as shown in the map below.

Preliminary Design

Map and placement of treatments are not to scale.
