CONSTRUCTION UPDATE

Holton Street Bridge Rehabilitation Project

City of Milwaukee | DEPARTMENT OF PUBLIC WORKS

APRIL 2026

N. Holton Street to be Closed Beginning Monday, April 13, 2026

Upcoming Street Closures

The City of Milwaukee is rehabilitating the N. Holton Street Bridge from E. Glover/Reservoir avenues to just north of E. Brady Street. The following work is scheduled to take place:

N. Holton Street from E. Glover/Reservoir avenues to just north of E. Brady Street is scheduled to close to all people driving and walking from April 13, 2026 through late July 2026 while crews replace structural steel on the bridge and complete final restoration.

Short-term closures of the Marsupial Bridge are anticipated as part of this work.

Short-term, daytime closures of N. Commerce Street between E. Dock and N. Holton streets are anticipated as part of this work.

Residents and businesses should be aware that noise will be associated with this work. Steps are taken to minimize these effects.

All work and schedules are weather dependent and subject to change.

Advanced closure warning signs will be posted notifying people driving, walking, and biking of short-term closures prior to reaching the Marsupial Bridge and N. Commerce Street.
