

CONSTRUCTION FORECAST

W. Lisbon Avenue from N. 100th St. to W. Burleigh St.

JULY 2026

CONSTRUCTION FORECAST FOR WEEK OF JULY 6, 2026

The City of Milwaukee is reconstructing W. Lisbon Avenue between N. 100th Street and W. Burleigh Street. In 2026, crews are reconstructing the street between N. 86th and W. Burleigh streets. The following work is scheduled to take place.

N. 100th Street to N. 86th Street

Crews have completed landscape restoration and pavement marking operations.

The project team is conducting a corridor walkthrough and identifying areas that require additional restorations.

- Additional restorations will be completed in late 2026

N. 86th Street to W. Burleigh Street

Crews are scheduled to continue installing the protected bike lane and sidewalk along the newly reconstructed westbound lane.

Permeable pavers are scheduled to be installed.

All work and schedules are weather dependent and subject to change.

Grass Cutting:

Residents and businesses are reminded that new sod must be allowed to take root before it can be mowed. Sod that becomes damaged or burnt due to premature mowing may not be eligible for contractor replacement. Before mowing, verify the roots are secure by tugging gently but firmly on the grass.

Newly planted trees on W. Lisbon Avenue.

Permeable paver on W. Lisbon Avenue.

Permeable Paver

Permeable pavers help on the drainage and filtration of storm water and snowmelt. By using porous materials, water travels all the way into the soil and gravel far below the concrete roadway, keeping water off city streets!
