

Project Overview

Safe Routes to Transit
BURLEIGH STREET

Project Overview

The City of Milwaukee's Safe Routes to Transit projects will **develop pedestrian and transit focused street improvements** along transit corridors to increase safety for everyone.

Two projects are underway:

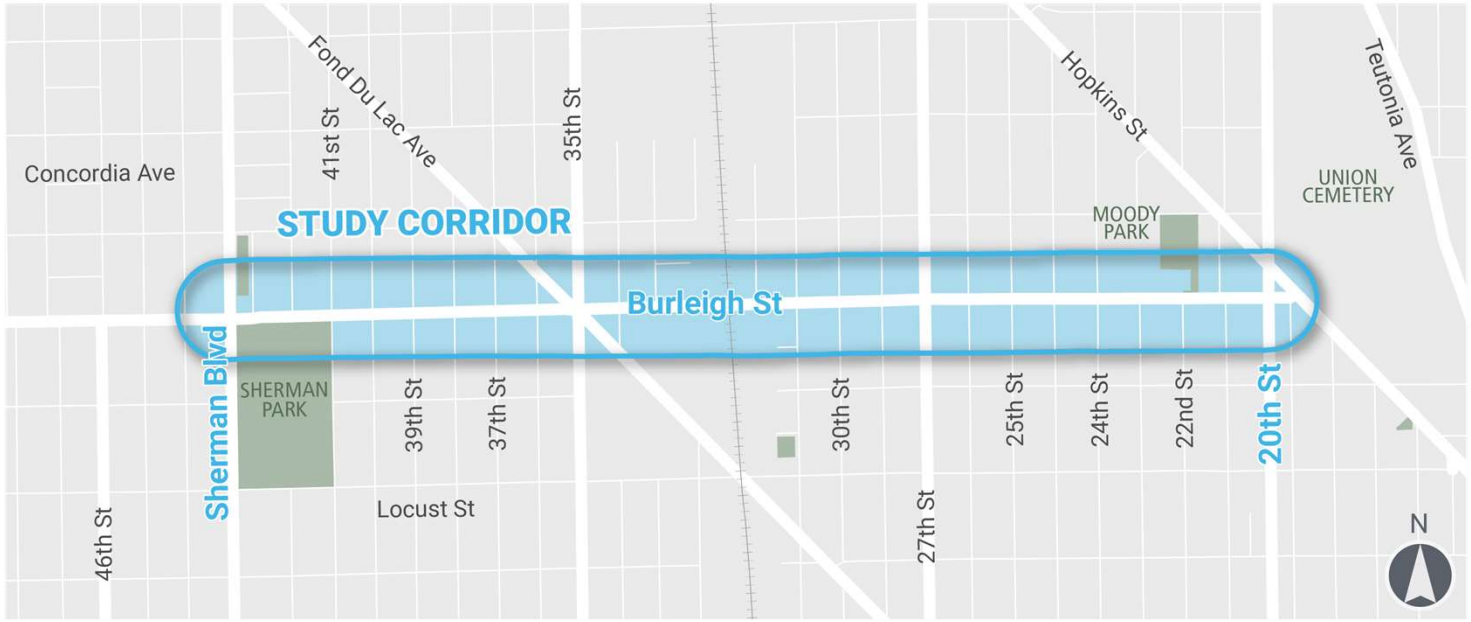

Safe Routes to Transit
BURLEIGH STREET

Safe Routes to Transit
CESAR CHAVEZ DRIVE

Safe Routes to Transit
BURLEIGH STREET

Project Location

Burleigh Street
Sherman Boulevard
to 20th Street

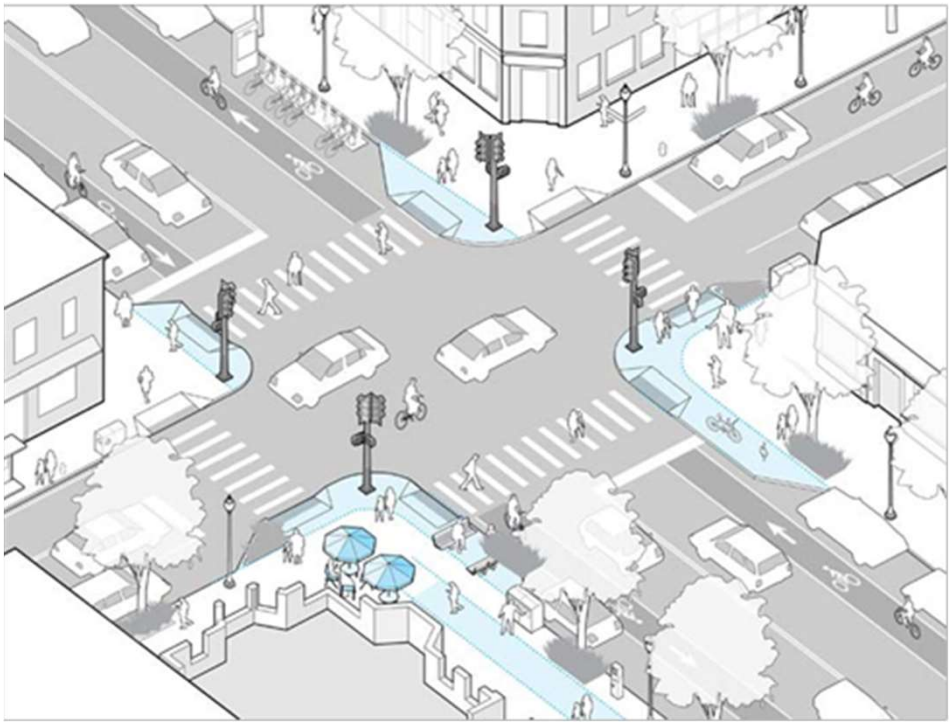

Toolbox of Treatments

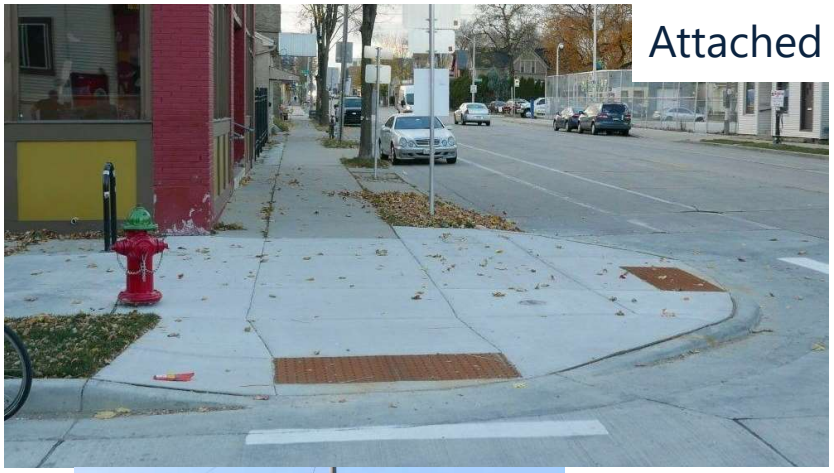

Toolbox of Treatments

Curb Extensions

Safe Routes to Transit
BURLEIGH STREET

$25,000 per corner

Attached

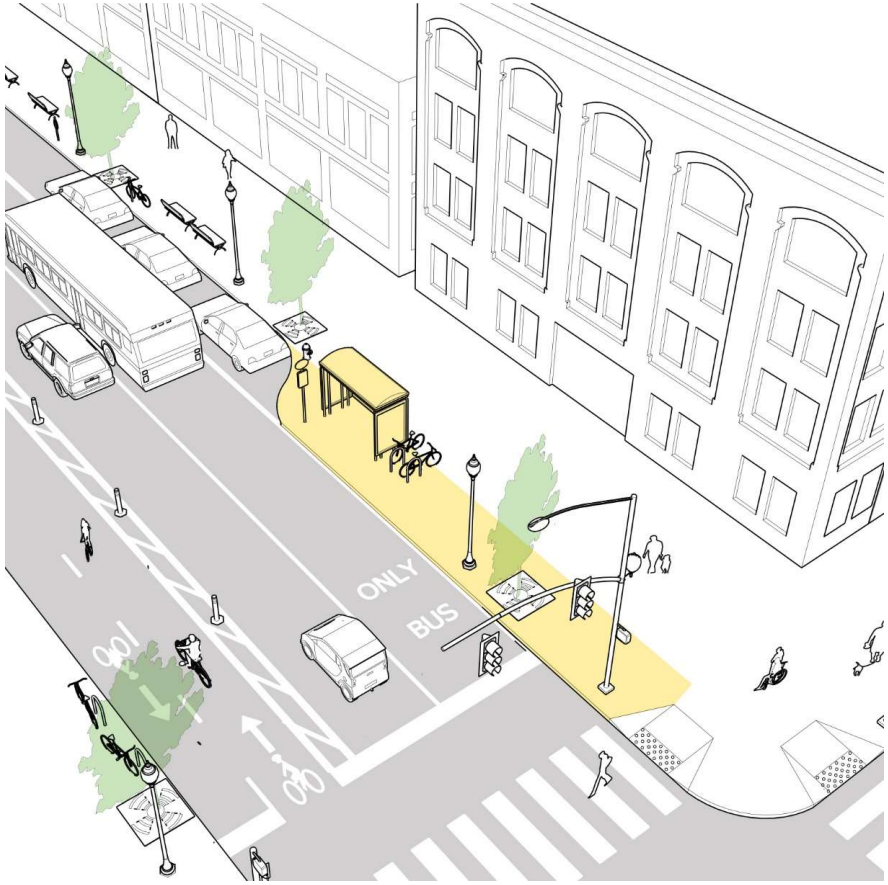

Detached

Toolbox of Treatments

Safe Routes to Transit
BURLEIGH STREET

Bus Bulbs

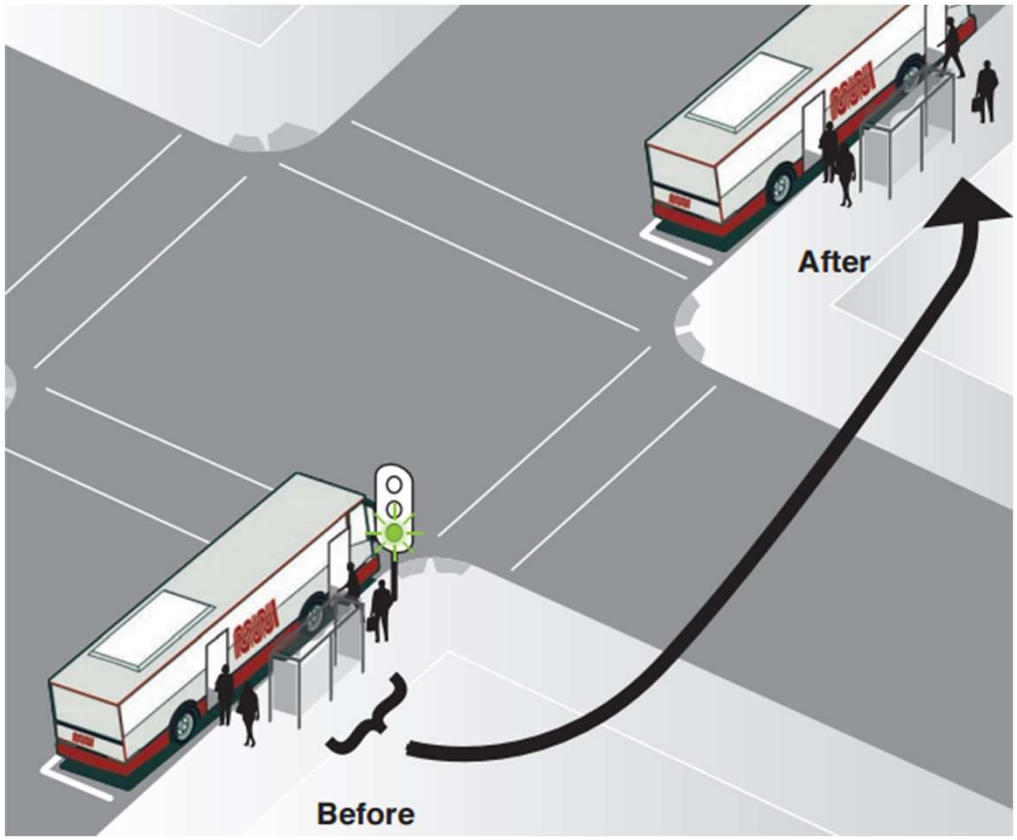

$40,000 per bus stop

Toolbox of Treatments

Bus Stop Relocations

Safe Routes to Transit
BURLEIGH STREET

$2,400 per bus stop

Toolbox of Treatments

Bus Shelter Improvements

Safe Routes to Transit
BURLEIGH STREET

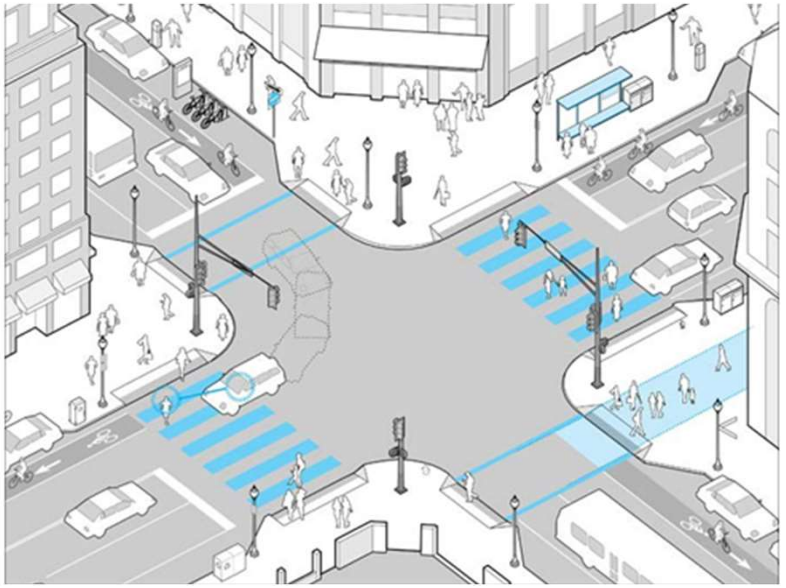

$2,500 per bus stop

Toolbox of Treatments

High Visibility Crosswalks

Safe Routes to Transit
BURLEIGH STREET

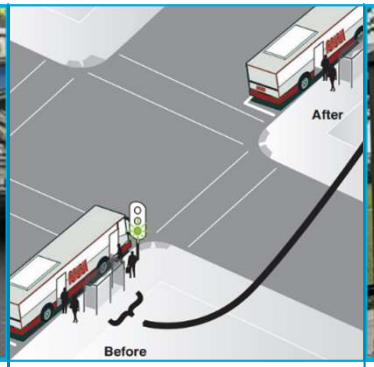

$1,500 per crosswalk

Safe Routes to Transit
BURLEIGH STREET

Proposed Improvements – 25th St

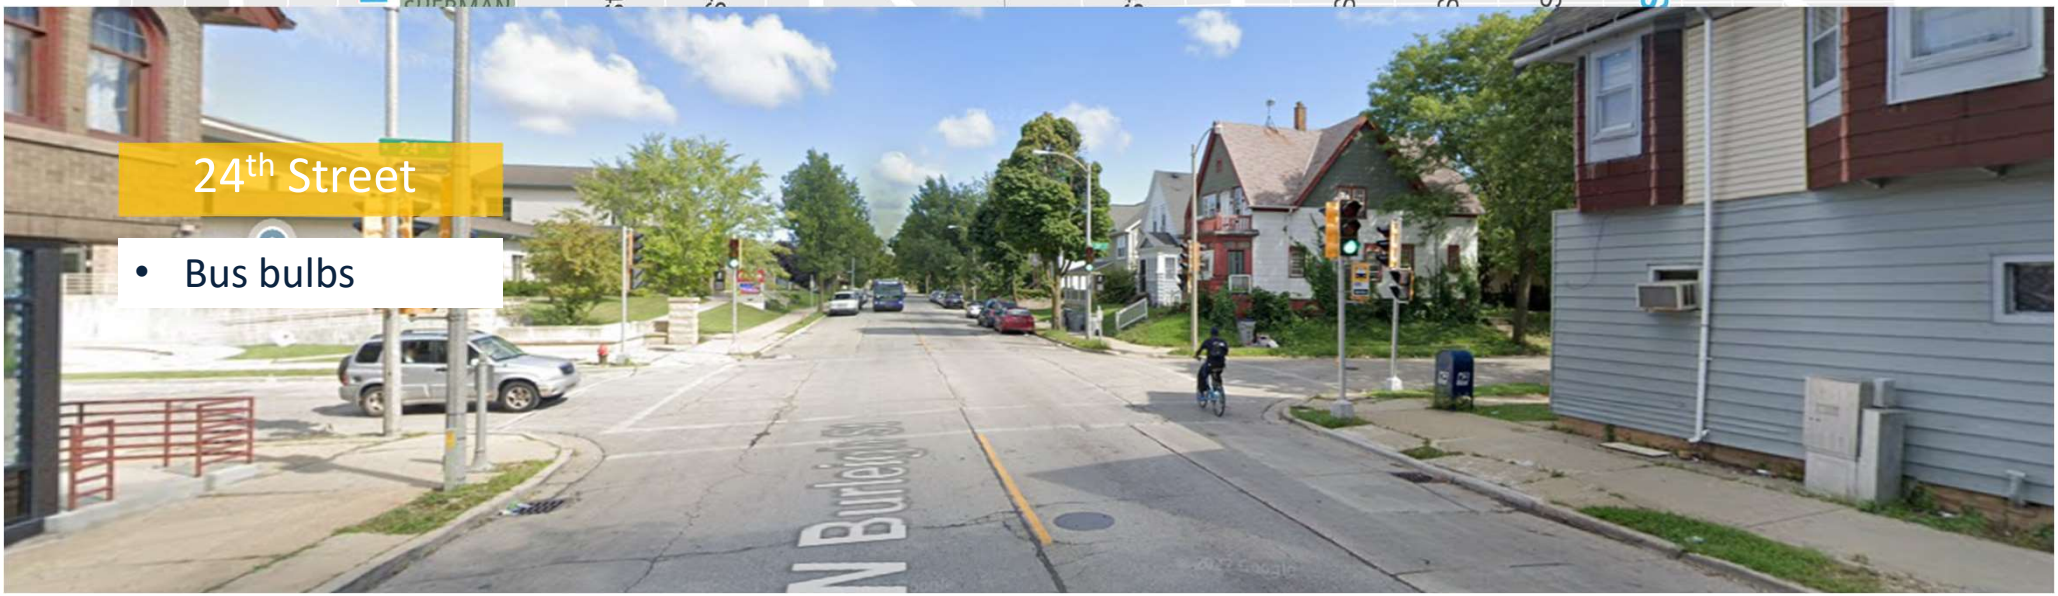

Safe Routes to Transit
BURLEIGH STREET

Proposed Improvements

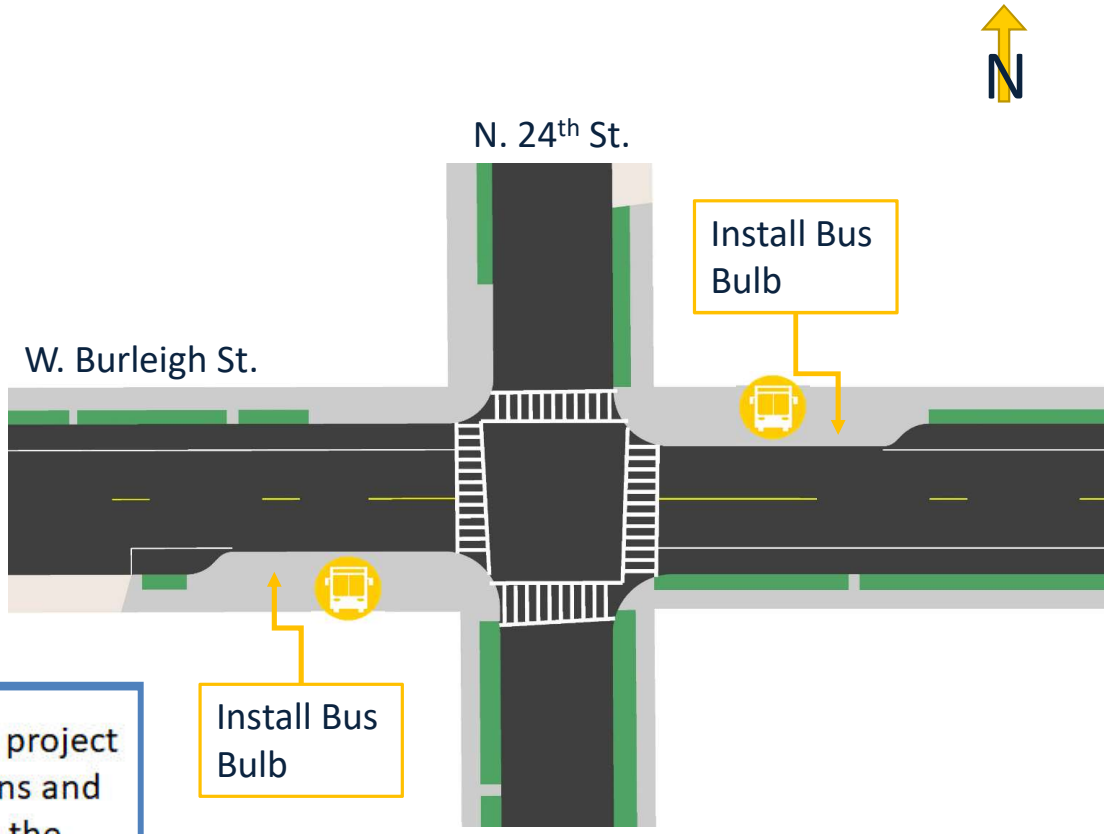

Safe Routes to Transit
BURLEIGH STREET

Proposed Improvements – 24th St

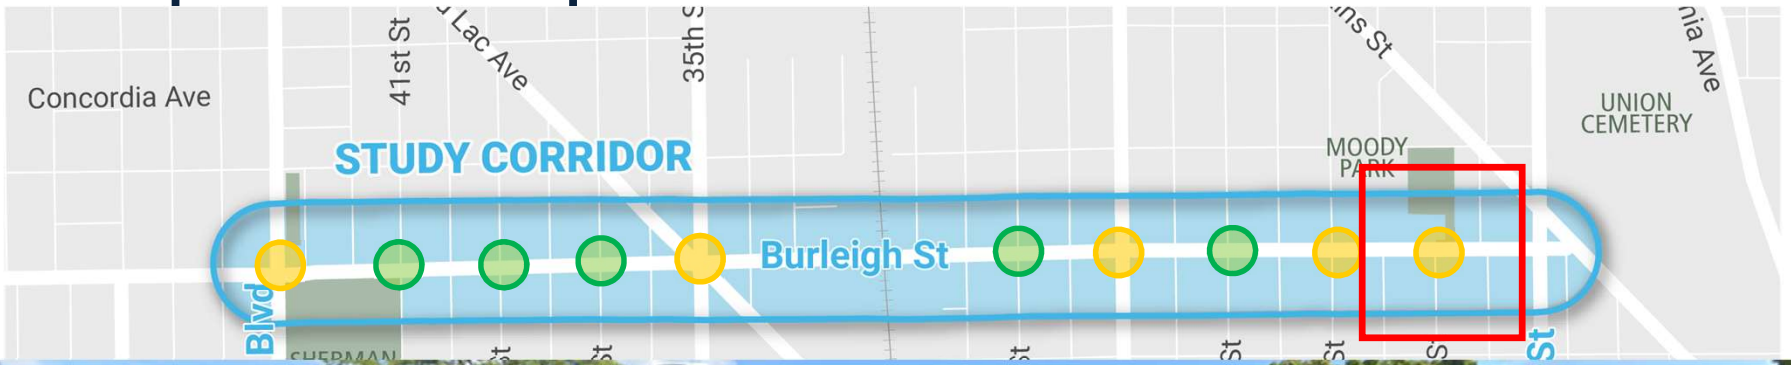

Update: In addition to the bus bulbs shown here, this project will also replace the traffic signal with all-way stop signs and install detached curb extensions (similar to 25th St) on the other two corners. These changes will help slow down traffic and make Burleigh St narrower and easier to cross.

Before replacing the traffic signal, the City will change it to a flashing red signal for 2-3 months first.

Safe Routes to Transit
BURLEIGH STREET

Proposed Improvements

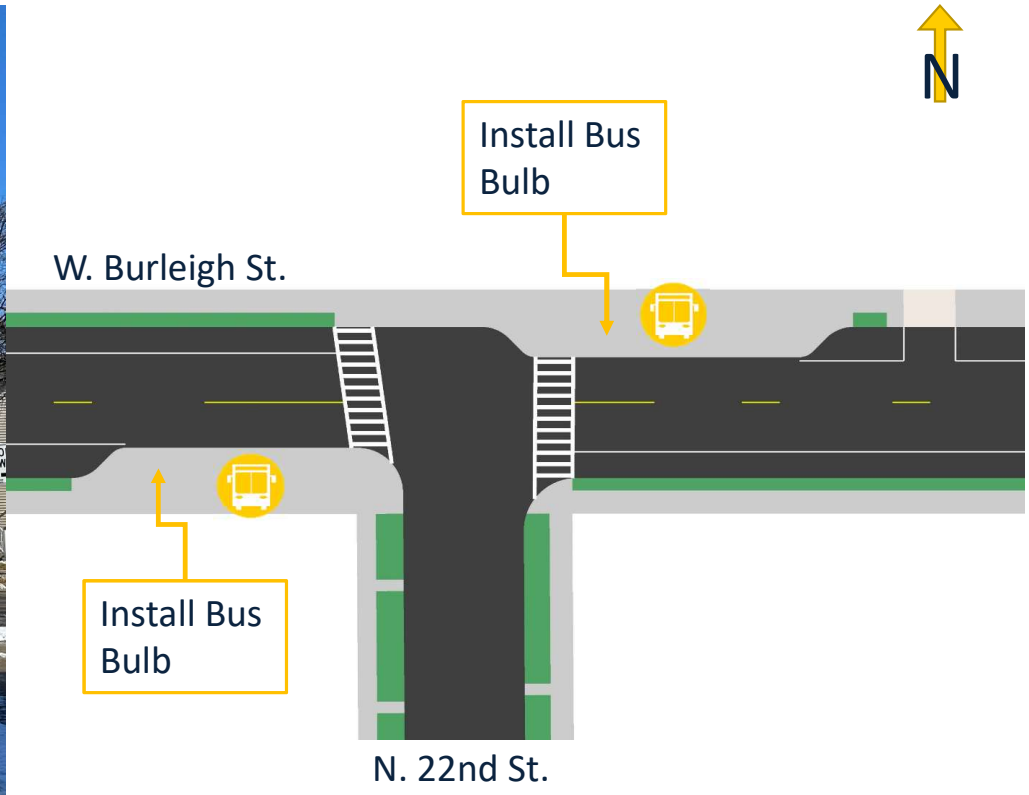

Safe Routes to Transit
BURLEIGH STREET

Proposed Improvements – 22nd St

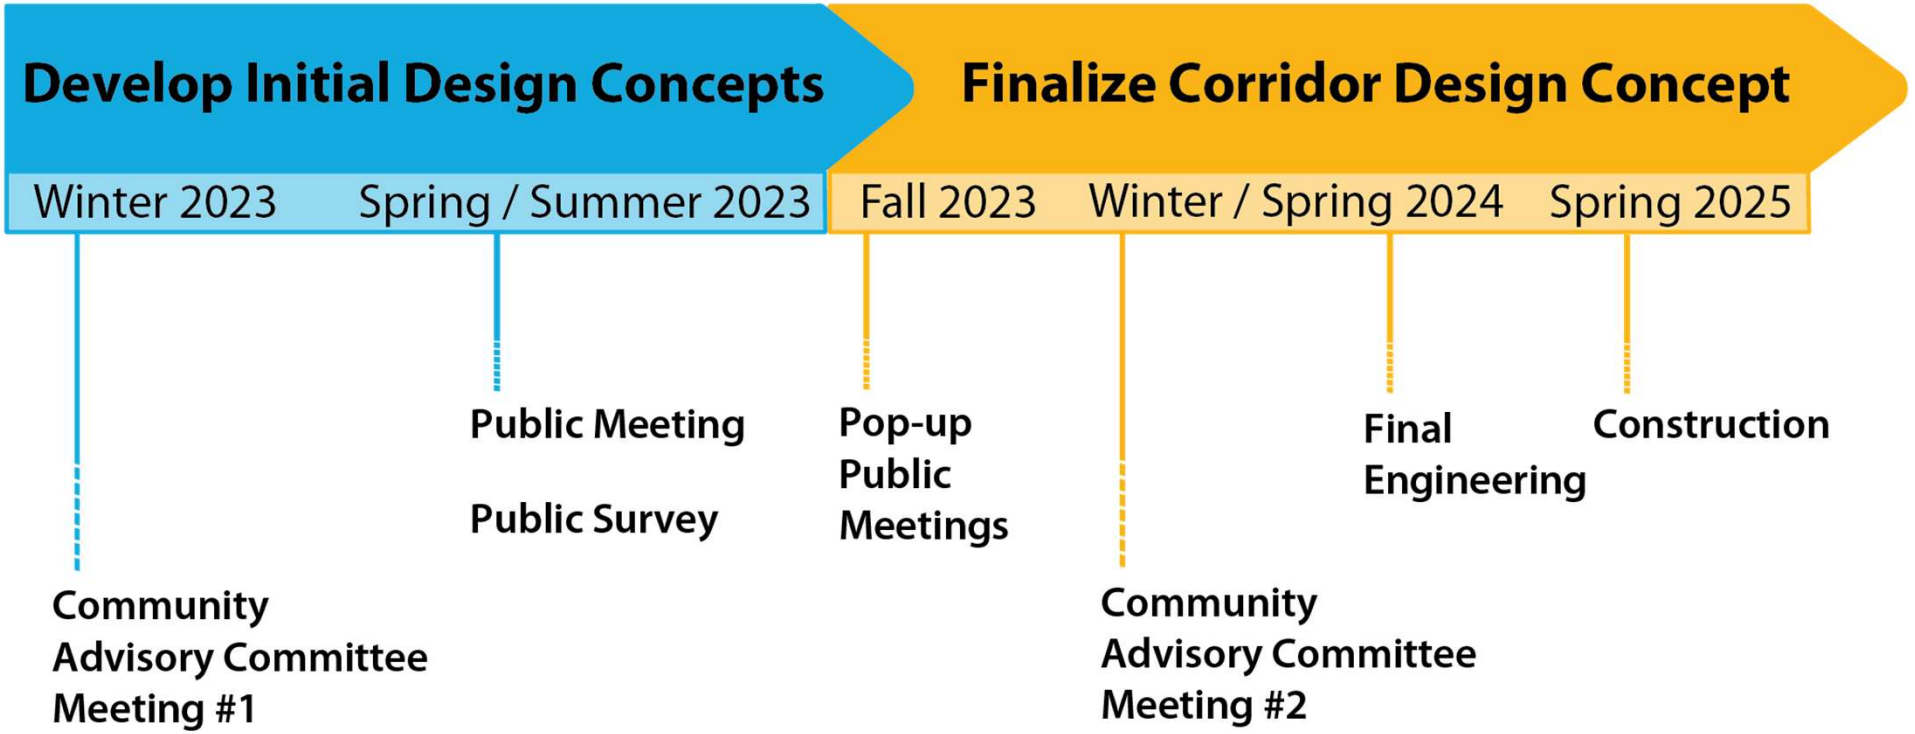

Next Steps

Safe Routes to Transit
BURLEIGH STREET

Project Timeline

Following the design phase, construction is anticipated to start in mid-2025.
